

Reduce Risk and Costly Fines

The importance of environmental and safety training continues to grow. Noncompliance of an environmental statute such as TSCA, CWA, SDWA, FIFRA, CAA, and RCRA to name a few, can lead to costly fines ranging from a few thousand dollars to over a million dollars!

Avoid these expensive penalties. Check your ESOHTN Training Plan now and make sure your training is up to date.

Welcome New ANG Sites!

Our ESOHTN Team has been working hard bringing up new Air National Guard sites on existing host bases in December. The remainder of the ANG sites will be phased in as new ESOHTN bases go live over the next 9 months.

The following sites are brand new and affiliated with existing bases:

Abston, Montgomery, AL	Birmingham, IAP
Boise Air Terminal	Camp Pendleton
Charlotte/Douglas IAP	Cheyenne MAP
Great Falls IAP	Gulfport CRTC
Jackson IAP	Jefferson Barracks
Joe Foss Field	Key Field
Lincoln MAP	Montgomery, AL
NAS Fort Worth JRB	North Highlands
Phoenix Sky Harbor IAP	Reno Tahoe IAP
Rosecrans Mem	Tucson IAP

Users will be able to select “ANG” as a choice on the registration page of their host site. For more information, contact your POC or ESOHTN Support at support@esohtn.com.

Welcome new ANG users!

Helpful Hints

Some bases require you to update your ESOHTN training annually. In order to update the completion date on your certificate, log into your ESOHTN account and locate the REQUALIFY link. You can find this link next to your list of completed training in your TRAINING PLAN or by clicking the PRINT CERTIFICATE link.

Clicking the REQUALIFY link will render your previous training EXPIRED. Once you have successfully passed the module again, your certificate will reflect your new and most recent completion date.

Winter Support Tip

Have you ever wanted to keep track of how far you’ve progressed through your training? Each module shows page numbers and how long each training is. For example, each training page reads “Page X of X” immediately below the page title.

Additionally, the TABLE OF CONTENTS is located to the left of the page in the vertical, gray navigational bar. This shows you how many pages are in each module and the topic of each page. You can click on the title of any page to be taken there immediately or see how much further you are to completion.

And remember, if you have any questions or need any assistance, contact us at support@esohtn.com.

New News!

ESOHTN President, Jerry Arcaro, has recently published a new Contractor Compliance manual, now available on Amazon.com. “Managing Risk in the Construction Industry through Environmental Compliance: On-Site BMP Checklists” targets construction professionals with a compilation of checklists that include BMPs for maintaining environmental compliance on the job.

Check it out on Amazon.com now!
