

Spotlight on GPP Training

More and more these days, personnel are charged with performing their jobs in an environmentally responsible manner. That's why we offer training on the Green Procurement Program. It's available and ready for your training needs.

Our detailed GPP module targets personnel involved with purchasing, project planning or hold a Government Purchase Card (GPC), and those responsible for purchasing or writing specifications to purchase items that can be made with recovered materials, hazardous materials, toxic materials, ozone depleting substances, energy efficient components or items that use alternative fuels.

Additional topics include GPP benefits, green procurement policy, responsibilities, GPP legal requirements, the seven components of GPP, energy and water efficient products, mandated supply sources, documentation, and finding green products.

10 Common SPCC Violations

As you know, inspections are inevitable and can often come without warning. That's why it is important to keep your SPCC plans up-to-date at all times.

Below are 10 common violations to be aware of:

1. The SPCC Plan did not have a signature of approval by management.
2. The SPCC Plan was not certified by a PE, if applicable.
3. The SPCC Plan lacks written procedures for inspections and for maintaining inspection records for 3 years.
4. **Personnel are not properly instructed in spill prevention procedures.**
5. Compatibility of tanks with the material stored is not discussed.
6. One of the oil storage tanks has no secondary containment.
7. Facility security measures are not mentioned in the SPCC Plan.
8. Facility lighting is not addressed in the SPCC Plan.
9. Inadequate secondary containment exists for truck loading and unloading rack areas.
10. Effluent discharges are not addressed in the SPCC Plan.

Don't get caught off-guard. Let us help keep you up-to-date with your training.

Your ESOHTN SPCC training can be customized to include your specific spill prevention procedures to ensure your personnel are properly trained and in compliance.

For more information on our GPP and SPCC training, visit our website at www.ecatts.com or contact us at 1.866.730.4253.

Are you *social*? So are we! Follow us on Twitter, "like" us on Facebook and visit our Blog. Now it's even faster and easier to stay up-to-date on all things ESOHTN!

Did You Know?

Are you new to receiving our newsletters and want to get caught up on what you've missed? We've just made it easy for you.

We're happy to announce our online Newsletter archive system, new to the ECATTS (ESOHTN) website!

Now you can view current or past newsletters whenever you want and stay updated on all important ESOHTN news.

Check out our new archive system today!

Summer Support Tip

The Installation Specific Information page on ESOHTN is a very useful, but often under-used, feature of your site. There, you can list contacts, phone numbers and email addresses of the various media managers at your base, making it easy to find contact information when you have questions.

We can also post important documents, policy statements, brochures, or anything else you want available to all personnel working at your base.

For more information, or if you have any questions, contact support@ecatts.com. We are always happy to help!

Have interesting stories, comments, quotes or updates about your base? Let us know! We're always looking to improve our newsletter for you.

Email support@ecatts.com and let us know. We might feature your story in our next issue!

Client Kudos!

"Kudos" to all our users at Maxwell Air Force Base!

This past May, more than 1,200 users logged in on ONE DAY to take their training and prepare for their ESOHCAMP visit. And almost 5,000 users logged in for training the entire month of May!

Keep up the good work, Maxwell!
