

### Updates & Enhancements

New modules have recently been added to your ESOHTN system:

- **Venomous Snake Safety and Removal Techniques video** - A new DoD-wide video now accessible for all Navy and DoD personnel. This 15 minute video demonstrates the equipment and techniques for safely moving venomous snakes.
- **Air Quality Shop Level Training: Keesler AFB** - This training covers air pollution and air pollution sources. It educates shop level workers on the criteria for mobile, stationary, major, and minor sources of air pollution as defined by the Clean Air Act, and includes information on AFI 32-7040 and MDEQ requirements. *Includes Audio!*

In addition to the modules listed above, **NEW AUDIO** has recently been included to the following Air Force training modules:

- HAZCOM
- Sustainable Procurement Program (SPP)

### Quarterly Review

At ESOHTN, we are always working to better your overall training experience, which means we stay busy keeping your site up-to-date and ready for all new and existing users. In the last quarter, we've had...

**2,815** new users in January  
**37,752** tests taken in January  
 &  
**1,227** new users in February  
**54,238** tests taken in February  
 &  
**1,380** new users in March  
**58,005** tests taken in March

Wow, that's a lot of ESOHTN users! Don't let your critical environmental and safety training fall behind. **Keep up the great work, ESOHTN!**

### World Environment Day

World Environment Day 2017 encourages worldwide awareness and action for the protection of our environment. "WED" occurs every year on June 5th, with this year's theme being "connecting people to nature."

How will you connect with nature this year? Take this opportunity to get outdoors! Embrace your surroundings and take in your environment's beauty and greatness. And don't forget, take care of nature so it takes care of you.

### Spring Support Tip

Time for some spring cleaning? Start by cleaning out your base's training records. You can archive the accounts of individuals who have left your base, so their training records no longer appear on your reports. Purging these records from your database will streamline your report results, making it easier to determine who in your facility is still in need of training. For more information, check the User Manuals available on your site. There is an 'Administrator Manual' and a 'Training Manager Guide' located in the top navigation panel of the corresponding pages.

Remember, feel free to contact us directly at [support@esohtn.com](mailto:support@esohtn.com) for any assistance.

*"I'm extremely grateful for all your help and impressively quick responses."*
