

hello winter

Module Additions

Brand new training modules have recently been added to your training sites. **Natural Resource Program Overview** courses for both **NSF Redzikowo** and **NS Rota** are now available for your training needs.

Course Objectives:

- Summarize overseas natural resource compliance requirements
- Provide an overview of the Natural Resource Management Program
- Familiarize personnel with the Natural Resource Management Plan (NRMP)
- Provide general information on local natural resources and protected species
- Identify general natural resource management actions to be completed by environmental staff

Have you tried any new training yet?

New News

Exciting news from your ECATTS team! Soon you will be able to access all your required training right from your smartphone with the new ECATTS app.

We've been hard at work building a new app to better serve your overall ECATTS experience; making it even easier to take your training, complete tests, and manage your profile.

Your new ECATTS app will be available early 2024 for both Android and IOS!

Winter Support Tip

Did you know about the many items that are customizable on your ECATTS site?

We are always happy to update or enhance your training to meet your specific needs. This can include links, attachments, photos, full modules, video training and even previously created courses into your ECATTS training site.

Additionally, we can update the "Contacts, Documents, Videos and Photos" link on the home page to include items pertinent to your location.

Contact us directly at **support@ecatts.com** if you have requests for customizing your site.

.....

happy 2024

**Thanks for your feedback! We are always happy to hear from you.
Let's hear what you had to say about your ECATTS training this past quarter:**

***"EMS Awareness Training was enlightening.
The hyperlinks enhanced the training module significantly."***

"The module was very informative and accessible."

"Very professional."

"Great training, format and exam."

"Excellent training."

"The training materials can be applied outside of work as well."
