

Hello AUTUMN

New Modules News

A brand new training series has recently been added to your training site!

Compliance Checklist Training Series

This training targets tenants, shop personnel, area personnel, and building personnel. Compliance Checklists are included in the training and can be used as a reference tool to help areas be & stay in environmental compliance. This training presents items to review for environmental compliance and explains items on the checklists with examples, pictures, and quick knowledge checks.

Training includes:

- Aerospace NESHAP
- Combustion Equipment
- Fuel Dispensing
- Hazardous Waste Accumulation Area
- Lift Station
- Oil Water Separator
- Pier Environmental Field Log
- Process Operations
- Quarterly AST Oversight
- Quarterly Portable Containers
- Stormwater Pollution Prevention
- Universal Waste Accumulation Area
- Waste Military Munition
- Weekly Best Management Practices

This series can now be found in the “Notices and News” area of your training site. Be sure to check it out!

Fall Support Tip

Did you know that both Administrators and Training Managers can assist users in accessing their accounts in ECATTS? Training Managers can provide the login ID if forgotten by a user, and an Administrator has the ability to look up the login ID and update a password.

Here’s how you can do both. In the Training Manager area, click LOOKUP USER under the User Accounts heading and search by first and last name. In the Administrator area, go to USER ACCOUNTS AND ACCOUNT MAINTENANCE, then LOOK-UP USER and search by last name. Once you find the user you are looking for, click on their name, scroll to the bottom of the page and click EDIT to select a new password before saving your changes.

And as always, don’t hesitate to contact us directly at support@ecatsts.com if you need any assistance. We are always happy to help!

**Thanks for your feedback! We are always happy to hear from you.
Let’s hear what you had to say about your ECATTS training this past quarter:**

“Best environmental training ever!”

“Overall, great program.”

“Quick, easy and to the point. Nice training.”

“The pace of the training was good and very engaging.”

“I would for sure take it again and again.”

***“The training modules were informative and well-designed...
the interactive elements made the learning experience engaging and
helped me to retain the information.”***
