

training:

Drinking Water: Lead in Priority Areas

Because of children's susceptibility to the effects of lead, it is Navy policy to meet U.S. Environmental Protection Agency (EPA) guidelines for testing and sampling of water from drinking water fountains, faucets, and other outlets from which children may drink, in schools and child care facilities.

This training module includes audio, video, interactive knowledge checks, diagrams, images, and a quiz at the end.

training content

1. Video: Lead Poisoning in Kids
2. Navy Policy and Guidance
3. Sampling Coordination and Notification Procedures
4. Sampling Plan Development
5. Staff and Parental Notification Requirements
6. Sample Collection
7. Video: How to Test for Lead in Your School's Drinking Water
8. Results interpretation and Notification Procedures
9. Corrective Actions
10. Post-Remediation Sampling and Notification Procedures
11. Annual Audits
12. Records Management and Results Reporting

how to use the training

This training is for *informational purposes only* and should not be considered a certification course.

To access this training, log into your ECATTS account then click on **All Available Training** then **Military Base Employee or Related Personnel**, then **Drinking Water: Lead in Priority Areas**.

If you do not have an ECATTS account, please follow the steps below to register for an account.

register

1. Navigate to the Navy ECATTS website: <https://environmentaltraining.ecatts.com>
2. In the center section of the page, follow directions to create a profile for New Users (if you have a .mil email address, select "CLICK HERE" and a password will be sent to you immediately)
3. Enter the registration password into the box
4. Click "Create"

If you have difficulty creating a profile, click on "ECATTS Support" or call 866-730-4253 for assistance. Additionally, you may email sspalding@ecatts.com for technical support.
