Drinking Water: Public Notification Rule and Consumer Confidence Report Rule

The Public Notification (PN) Rule is part of the Safe Drinking Water Act. The rule ensures that consumers will know if there is a problem with their drinking water. The Consumer Confidence Report (CCR) Rule requires all CWSs to prepare and distribute a brief annual water quality report, or Consumer Confidence Report (CCR), summarizing information regarding source water, detected contaminants, compliance, and educational information. Both rules are covered in this training.

This training module includes audio, interactive knowledge checks, diagrams, images, and a quiz at the end.
