

# SUMMER

## Training Spotlight - What's New?

*New Courses Added!* Two new **UST Certification Courses** have recently been added to your training site for the states of Pennsylvania and Georgia. Each training curriculum includes 9 modules and educates on:

- UST Operator Training Requirements
- Underground Storage Tanks
- Spill and Overfill Prevention
- Release Detection
- Corrosion Control
- UST Financial Requirements
- Temporary and Permanent Tank Closure
- Emergency Response
- Inspections, Recordkeeping, and Reporting

New **Radon Assessment and Mitigation Program Training** is now available and includes 9 topic-specific modules supplemented with audio, interactive knowledge checks, graphs, diagrams, images, and a final comprehension quiz. Topics include:

- Radon and its Health Risks
- Navy Radon Policy
- NAVRAMP Testing Phases
- General Overview of Radon Testing
- NAVRAMP Radon Testing
- Health Risk Communication
- Radon Mitigation Overview
- NAVRAMP Mitigation
- Radon Management Plan

We've also added new quick links in the "Notices and News" area of your site to make these courses even easier to access!

## Updates & Enhancements

**EMS Quick Link:** Due to both its popularity and requirements, your Environmental Management System training now has a quick link located in the top, left side of your gray navigation bar after your log in. Just another ease and benefit of training through your ECATTS site!

**Training Expiration and Notification Email:** We've been hard at work building a NEW email notification element so users can receive reminders of upcoming training requirements that are due. This "Training Expiration and Notification" feature allows Admin users to send customized notifications with a dynamic selection of installation, training module, expiration date, selected users, and content of message.

An informational flyer is posted in the Administration area of your site and can be found by clicking on "User Accounts and Accounts Maintenance." Admins, check it out now and learn more!

## Summer Support Tip

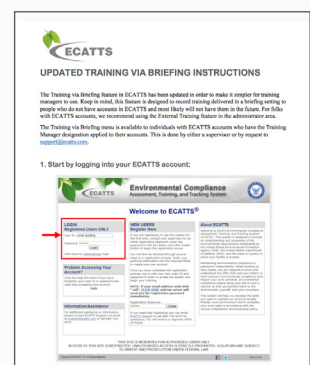

Recently, Sarah Spalding, Customer Support Manager, hosted a webinar showcasing the capabilities of the Training via Briefing feature on our ECATTS system.

Worried you missed it? Don't be. You can still learn all of the benefits of the TvB through our handy step by step guide now available on your training site.

Just log in and visit:

<https://ecatsts.com/pdf/ECATT-TrainingViaBriefingInstructions.pdf> to view instructions. Or click **HERE** to check it out now.

And remember, for any system support questions, contact us at [support@ecatsts.com](mailto:support@ecatsts.com). We are always happy to help.

## Did You Know?

Did you know that our Support Team is available for training webinars for your base, too? We are always happy to develop new webinars on the topic of your choice to keep you and your team updated on courses, system enhancements, and site navigation.

Just contact us directly at [support@ecatsts.com](mailto:support@ecatsts.com) and let us know what additional training could benefit your base!
