

Updates & Enhancements

We've been busy adding lots of updates to training at many of your installations. You can see new additions and revisions to your Mechanicsburg, Fallon, Pearl Harbor, Hampton Roads, Little Creek, Norfolk, Oceana, Yorktown, Annapolis, Crane, King's Bay, and Panama City sites.

Plus, across all installations, we've added hyperlinks to additional resources and a new Amphibian and Reptile Training series.

Many more system updates are currently under way! You can keep an eye out for new courses such as Drinking Water, XO/CO, PWO, Checklist Training, and more UST training shortly.

Training Spotlight

NEW!

A new training series consisting of 7 courses has recently been added to your sites: **Amphibian and Reptile Training Series**.

This training can be taken as a complete series or independently. All of the following courses include knowledge checks and audio:

1. An Introduction to Amphibians and Reptiles
2. Diversity of Amphibians and Reptiles in the United States
3. General Inventory and Monitoring Techniques for Herpetofauna
4. Habitat Management Guidelines for Amphibians and Reptiles on DoD Installations
5. Incorporating Science into Management and Conservation of Herpetofauna
6. Threats to Amphibians and Reptiles
7. Venomous Snake Safety and Removal Video Training

This new training is available to all Navy installations through the "All Available Training" areas, and also to all DoD related personnel.

ECATTS Site Visit

Last month, our ECATTS Customer Support Manager, Sarah Spalding, traveled to Naval Station Mayport to visit with the EMS Working Group. Sarah's visit was not only to demonstrate the ECATTS site, but also to share some of the most useful features in the administrator area.

Several options for improving ECATTS reporting and notification capabilities were raised and will be discussed further at the monthly Navy/ECATTS conference call. Additionally, it was suggested that Sarah be available to assist Navy regions in their individual ECATTS-related issues. ECATTS is happy to accommodate this request. Any regional POC can email support@ecatts.com at any time for assistance.

End of Year Review

We've wrapped up our year with some great stats, ECATTS users!

We've added **21 new courses** and **updated 3,776 courses** across all installations in 2017.

More big news! We're working on having our Knowledge Checks added to all modules with a target date of early Spring 2018. And audio added to all modules by late Summer 2018.

Winter Support Tip

Have you ever forgotten your ECATTS login information? There are several links on your Welcome Page that can help you retrieve your login information (if your email address has not changed since creating your ECATTS account). Click on the HELP link in the box labeled "Problem Accessing Your Account," where you will be prompted to enter your email address. Your login information will then be sent to the email address on file.

If your email address has changed since you initially created your account, you can always contact us at support@ecatts.com for help.

happy new year!
