

Site Updates

The ESOHTN team has been hard at work updating your modules, both installation-specific and site-wide. Here are just a few of the major updates across all installations that you can look out for:

- Training “Quick Links” added to the homepage for GPC, EMS and HAZCOM for better user navigation
- Updates & enhancements made to HAZCOM, Recycling, EMS, SPP, Conservation and Water Training, including content changes, text styles, images, addition of video and/or knowledge checks
- Notices added regarding module changes, newsletters, organizational data or current events
- Updated User Manual

And all of this was just for the month of November! We continue to work towards enhancing your site for a better overall training experience.

DENIX Lists ESOHTN as a SPP Training Source

The DoD Environmental, Safety and Occupational Health Network and Information Exchange (DENIX) has listed ESOHTN as a Sustainable Procurement Training on their website. Have you taken your SPP training yet?

Sustainable Procurement Program Awareness

Training Purpose: To help meet the DoD and Air Force initial and refresher training requirements for government personnel, contractors and Government Purchase Card (GPC) holders involved in the procurement process.

Objective: To help Air Force personnel and contractors understand what sustainable procurement is, understand federal laws & regulations, Executive Orders and the DoD & AF SPP policies, how to implement SPP, and how to comply with federal SPP requirements.

The Sustainable Procurement Program replaces the Green Procurement Program and establishes new and updated goals for agencies to improve their sustainable environmental practices.

New Module News

We have recently added many new modules to our ECATTS training site, specifically for our Navy clients - a complete training series and two individual modules specializing in Amphibians and Reptiles in the U.S.

PPV Environmental Training Series

This training series consists of 16 modules and is a familiarization with environmental topics which might be found at Navy housing. Training is targeted towards anyone who constructs, renovates, maintains, operates or manages Navy housing.

Topics include Asbestos, Arsenic, Cultural and Natural Resources, EPCRA and CERCLA, Hazardous Waste, Lead-Based Paint, Mold, Ozone-Depleting Substances, PCBs, Pesticides, POL Operations and Storage, Pollution Prevention Act, Radioactive Materials, Radon, Recyclables and Water.

An Introduction to Amphibians and Reptiles

An overview of the major groups of amphibians and reptiles, including characteristics and differences, as well as common myths and misconceptions surrounding amphibians and reptiles.

Diversity of Amphibians and Reptiles in the United States

An overview on diverse amphibians and reptiles that Navy personnel may encounter, and the challenges associated with these animals.

If these courses could be beneficial to your base as well, please contact us at support@esohtn.com for more information.

From all of us at **ESOHTN**,
Happy New Year!

Training Manager Tips

Are you responsible for ensuring that your troops have taken their environmental training? ESOHTN can simplify this task with a simple training manager designation. An ESOHTN Training Manager has the ability to pull reports for those in their designated wing, group or squadron. These reports are exportable to an excel spreadsheet, making it easy to sort and find the information you need.

For more information, or to be designated as an ESOHTN Training Manager, contact us at support@esohtn.com.

Winter Support Tip

Did you know there are User Manuals available on the site to help you better navigate as both an administrator and ESOHTN user? If you are logged in as a user, you will see a green link on the left side of the page titled ESOHTN USER MANUAL. If you are logged in as an administrator, you will see a link in the top horizontal navigation panel titled HELP CENTER. The Help Center in the admin area has several options for navigational assistance and the Administrator Support Manual can be found in the fourth bullet.

As always, do not hesitate to contact us directly at support@esohtn.com if you require any assistance.

November Numbers

ESOHTN users are growing every day!

For the month of November:

New users:

1,388

Tests taken:

50,184

Users since start of contract:

86,177

Tests since start of contract:

1,973,294!
